## DETAILED ACTION

### *Allowable Subject Matter*

**Claims 1 - 22** are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Consider independent claims 1, 5, 9, 10, 14, and 20, the best cited prior art of record found during examination of the present application is: **Sanjeev et al. (USPN 2003/0078002)**.

Sanjeev et al. disclose a method of reestablishing a wireless link between two devices, namely, remote and client device. The client device determines the type or reason for termination of the link and reestablishes the wireless link if it should be reestablished. In addition, the wireless link is not restored if it is intentionally terminated by either of the two devices.

However, Sanjeev et al. fail to disclose preventing or inhibiting the host computer from receiving an indication of the disconnection of the radio transmission link.

In light of the combination of the above-cited references, the present invention as claimed is novel and non-obvious since the cited prior arts of record do not contain either explicitly or implicitly the limitations as a whole as disclosed in claims 1, 5, 9, 10, 14, and 20. In addition, any reasonable combination of the cited references cannot be used to reconstruct the claimed invention. Therefore, the present application as disclosed is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
